

*** NEW SUBMISSION DATES ***

**CALL FOR PAPERS FOR A SPECIAL ISSUE OF THE
JOURNAL FOR COGNITIVE EDUCATION AND PSYCHOLOGY**

Submission of abstracts: December 1st 2011

**COGNITION AND TECHNOLOGY:
THEORY, RESEARCH, AND PRACTICE**

This special issue will be dedicated to advancing the theory and contrasting conceptual frameworks that inform and guide research in the area of technology and cognition in its broader context. The knowledge base regarding the impact of technology on different aspects of cognition is not adequately developed to guide technology integration in cognitive treatment.

This special issue of the *Journal for Cognitive Education and Psychology* will focus on cognition and technology very specifically. The guest editors seek manuscripts that discuss, critique, and advance the theoretical conceptions of cognition and technology. The issue will strive to be international in scope.

Papers should be submitted to either guest editor David Passig (david@passig.com) or to the Editor-in-Chief Marco Hessels (Marco.Hessels@unige.ch).

A full paper is expected by June 1, 2012. For submission guidelines, please see the journal Website at <http://www.springerpub.com/content/journals/JCEP-guidelinesREV.pdf>.

Timeline:

December 1, 2011: Suggestion of abstracts

January 3, 2012: Approval of abstracts

June 1, 2012: Submission of papers

July 1, 2012: First round of reviews

August 15, 2012: First revision

September 15, 2012: Second round of reviews

November 1, 2012: Final version

To be published in Vol. 12 (2013)
